

Following is a list of project types that are eligible for 100 percent federal funding, according to 23 US Code Section 120:

1. Traffic Control Signalization
2. Maintaining minimum retro reflectivity of highway signs/pavement markings
3. Pavement Marking
4. Traffic Circle
5. Safety Rest Areas
6. Shoulder and centerline rumble strips and stripes
7. Traffic Lights (including street lighting)
8. Commuter carpooling and vanpooling
9. Rail-highway crossing closure
10. Traffic Signs
11. Guardrails
12. Impact attenuators
13. Concrete barrier end treatments
14. Breakaway utility poles
15. Priority control systems for emergency vehicles or transit vehicles at signalized intersections

Eligibility of Surface Transportation Block Grant (STBG) funds requires roadway projects to be located on the functional classification system. Rural minor collector and local roads are not eligible for STBG funding.
