A presentation was given by Mr. Lee Hutchins of AECOM, acting as consultant for the Memphis MPO, which outlined the beginning of the process for the creation of the MPO’s Regional Freight Plan. He highlighted the overall goals of the plan, the team helping to develop the plan, and how the Planning and Land Use Committee could contribute. Mr. Hutchins went into depth about the steps that will be taken to develop the plan, and different subjects that the plan will analyze. Mr. Hutchins highlighted how the plan would affect land use concerns related to the duties of the PLAC. He urged the members of the committee to contact him with any relevant information they might have.

Mr. Keith Briley asked about the plan’s considerations for the Lamar Avenue corridor. Mr. Hutchins emphasized the importance of Lamar Avenue and how the plan would take it into account.
